

Thatta Cement Wind Power Project

We are pleased to announce the successful completion and commissioning of our 4.8 MW wind power project at the Company's plant in Thatta, Sindh. This marks a significant milestone for the Company, as the project has been completed well ahead of schedule and commenced operations on April 3, 2025.

With this achievement, our total installed capacity from renewable energy sources now stands at 9.8 MW, comprising a 4.8 MW wind power plant and a 5 MW solar installation.

This expansion in renewable energy has significantly strengthened our commitment to sustainable environmental practices. Our continued investment in renewable energy projects not only contributes to cost savings but also plays a crucial role in reducing the country's reliance on fossil fuels.
